

*Functional Feed  
Ingredient for pigs,  
poultry and cattle*

Vitafix Select is a mineral feed according to regulation EC 767/2009

Complies with KB of 28 June 2011 (BS 22.08.11) and MB of 12 February 1999 (BS 21.04.99) concerning trade and use of substances destined for animal feeding.

Date: 6-dec-13

### Description

Vitafix Select is used to protect food producing animals against the negative effects of mycotoxins on health and performance. Carefully selected aluminosilicates (1m558i) assure an excellent binding capacity of aflatoxins.

### Product Characteristics

Appearance: powder  
Colour: brown  
Odour: neutral

### Recommendations for use

Vitafix Select is designed for monogastric animals as well as ruminants. Apply Vitafix Select in case a mycotoxin contamination of the feed is suspected or confirmed. Although the dose can be farm specific, the following inclusion rates are advised:

	Dosage
Pigs/poultry	
Low contamination	1 - 2 kg/Mton
High contamination	2 - 3 kg/Mton
Cattle	
Low contamination	50 - 100 g/animal/day
High contamination	100 - 150 g/animal/day

### Packaging, Stability & Storage

**Packaging** Available in 25 kg bags  
**Storage** Store cool & dry  
**Stability** When stored under recommended conditions the product is stable for at least 6 months from the date of manufacture.
